Dear Sirs:I am a seed inspector for Wiken Seeds seed company in central IL. I cover a fairly large geographical area from sust south of Chicago, IL. To Springfield, IL. to the Indiana boarder to Peoria, IL. I also travel into the states of Indiana, Iowa, and Missouri. XM's weather really helps me in and outside job. The traffic also helps me when I travel through metro areas. It saves me time. Thanks for listening.
Douglas Swartz
